A RESOLUTION

AUTHORIZING THE GENERAL MANAGER TO CERTIFY THAT THE LOCAL SHARE OF FUNDS FOR THE NORTH FREEWAY TRANSITWAY PHASE IV PROJECT WILL BE-derived-from sales tax revenues and interest earnings thereon; designating $6,235,333 of the capital program reserve account as the north freeway transitway phase IV capital reserve account to provide the capital reserve required by the full-funding grant contract with the Urban Mass Transportation Administration of the United States Department of Transportation; authorizing the general manager to take such administrative actions as necessary to create and administer the north freeway transitway phase IV capital reserve account; and making findings and provisions relative to the subject.

WHEREAS, the Urban Mass Transportation Administration of the United States Department of Transportation (UMTA) has agreed to fund $46,765,000 of the cost of the North Freeway Transitway Phase IV project; and

WHEREAS, UMTA has determined to make its financial support available through an agreement known as a "full-funding contract;" and

WHEREAS, the full-funding contract with UMTA for this project requires that METRO identify the source of local funds to match the federal grant and that METRO create and maintain a capital reserve account of non-federal funds equal to ten percent (10%) of the net project cost of the project throughout the period of construction of the project to assure availability of local matching funds to complete the project in the event of cost overruns; and
WHEREAS, the Board of Directors has previously established a "Capital Program Reserve Account" by way of Resolution 80-118 to insure that the full amount of funds necessary for construction of the public mass transportation system are available throughout the duration of the development of that system; and

WHEREAS, the Board of Directors is of the opinion that it is appropriate to designate a "North Freeway Transitway Phase IV Capital Reserve Account" out of the "Capital Program Reserve Account" to comply with the UMTA full-funding contract requirements and to insure that the local contribution to fund this project will continue to be available throughout the project;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE METROPOLITAN TRANSIT AUTHORITY THAT:

Section 1. The General Manager be and he is hereby authorized and directed to certify to the Urban Mass Transportation Administration that METRO's local share of funds for the North Freeway Transitway Phase IV Project will be derived from METRO's sales tax revenues and interest earnings thereon.

Section 2. The Board of Directors hereby authorizes and directs the designation of $6,235,333 out of the "Capital Reserve Account" as the "North Freeway Transitway Phase IV Capital Reserve Account" to be used to satisfy the obligation to maintain a capital reserve account under the full-funding contract with the Urban Mass Transportation Administration for the North Freeway Transitway Phase IV Project.
Section 3. The General Manager be and he is hereby authorized and directed to undertake and complete all administrative actions reasonable and necessary to accomplish the designation of the "North Freeway Transitway Phase IV Capital Reserve Account" and to certify the existence and adequacy of said account to meet METRO's obligations under the full-funding contract with the Urban Mass Transportation Administration for the North Freeway Transitway Phase IV Project.

Section 4. The North Freeway Transitway Phase IV Capital Reserve Account is not to be pledged or otherwise encumbered for any purpose other than to satisfy the capital reserve account obligation of the full-funding contract described above prior to completion of the project. The General Manager be and he is hereby authorized and directed to reduce the North Freeway Transitway Phase IV Capital Reserve Account from time to time consistent with the terms and conditions of the full-funding contract.

Section 5. This resolution is effective immediately upon passage.

PASSED this 21st day of November, 1988.
APPROVED this 21st day of November, 1988.

COMMENDING AND CONGRATULATING
BILL MINTZ

WHEREAS, Bill Mintz became the transportation reporter for the Houston Chronicle in February, 1987; and

WHEREAS, during the time that Bill Mintz has reported on transportation activities, his work has been characterized by initiative, insight, accuracy and thoroughness; and

WHEREAS, Bill Mintz has now accepted a position with the Washington Bureau of the Houston Chronicle; and

WHEREAS, the Board of Directors wishes to commend Bill Mintz for his transportation reporting and to congratulate him on his new assignment; NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE METROPOLITAN TRANSIT AUTHORITY THAT:

Bill Mintz is hereby commended for his efforts to inform the public on the transportation issues and activities in the greater Houston area, and the Board of Directors hereby extends its heartfelt congratulations to Bill Mintz on his new assignment and conveys to him very best wishes for his continued success.

RESOLUTION NO. 88-176

A RESOLUTION

ADOPTING A STATEMENT OF PRINCIPLES FOR PRIVATE SECTOR PARTICIPATION IN THE DESIGN, CONSTRUCTION AND OPERATION OF THE SYSTEM CONNECTOR ELEMENT OF THE PHASE 2 REGIONAL TRANSIT PLAN; AND MAKING FINDINGS AND PROVISIONS RELATIVE TO THE SUBJECT.

WHEREAS, the Board of Directors, in adopting the Phase 2 Regional Transit Plan on October 22, 1987, expressed its intention to pursue involvement of the private sector in development of the System Connector element; and

WHEREAS, following adoption of the Phase 2 Regional Transit Plan and its approval by the voters on January 16, 1988, the Board of Directors and METRO Staff have extensively studied alternative means to involve the private sector in the design, construction and operation of the System Connector; and

WHEREAS, the Board of Directors is of the opinion that it is appropriate to state the principles for such private sector involvement which, based on the studies to date, it believes are reasonable and proper for cost effective and efficient development of the System Connector in order to provide guidance to METRO Staff;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE METROPOLITAN TRANSIT AUTHORITY THAT:

Section 1. The statement of principles for private sector participation in the design, construction and operation of the
System Connector element of the Phase 2 Regional Transit Plan attached hereto as Exhibit A is hereby adopted for guidance of METRO Staff in development of the System Connector.

Section 2. This resolution is effective immediately upon passage.

ATTEST:

Robert C. Lanier
Chairman
The METRO Board is committed to designing and constructing the System Connector in the most cost effective and efficient way possible. To that end, it has studied alternative methods to accomplish the task, sought advice from other transit agencies that have constructed and operate rail systems comparable to the System Connector and held an all-day symposium on September 27th to which were invited knowledgeable persons from both the public and private sector. The Board has explored various ways in which private firms might be involved in the design, construction and operation of the System Connector (sometimes referred to as "privatization") and has come to some conclusions which are reflected in this statement.

It appears in the best interest of METRO that the design, construction and operation of the System Connector be under the direct control of the METRO Board and Staff, with private firms utilized to provide those specialized services which they are uniquely capable of providing.

System Definition and Preliminary Design

It is a non-transferable METRO responsibility to define the basic system requirements - alignment, configuration, extent of grade separation, operating speed and capacity requirements and technology. This can best be done through the normal public planning and decision-making process and not through competitive outside proposals; provided, however, that it is the intent of
the Board that METRO timely solicit proposals to engage the services of a program management firm with specific relevant experience in fixed guideway mass transit projects. Based upon the system definition, design must then be advanced to the 25–30% level of completion, known as preliminary design, so that the system and its individual components are adequately described and reliable cost estimates are possible.

**Detailed Design and Construction**

Once the system is defined and preliminary engineering is complete and a Record of Decision is received from the Federal Government, METRO should proceed into detailed engineering, utilizing private firms for this purpose. At this juncture and at other key points in the evolution of the project, METRO should be aware of and give careful consideration to the desirability of design and build contracts and/or the use of value engineering contracts to determine whether there would be a clear advantage to using one or both of these techniques.

On the basis of study to date, it appears that an area where extensive private sector involvement can yield significant benefits to METRO is in the development of stations. Private real estate developers might well be able to present proposals for the construction of stations and the development of surrounding land and/or air rights which would be mutually attractive and economically sound for METRO.
**Operation**

Operation of the System Connector by the private sector may be more economical than METRO operation. This option should be retained and fully explored at the appropriate time.

**Summary**

The basic strategy, then, is to have a METRO-directed project with exploration of private involvement opportunities at key junctures in the development of the System Connector to determine if a clear advantage exists in turning more of the responsibilities over to private firms. If a clear advantage cannot be satisfactorily demonstrated, then conventional design and build techniques would be used.

The METRO Board believes that this approach reflects the best experience of public agencies to date and the advice of responsible private parties as to the course of action that the METRO System Connector project should follow. It must be kept in mind that, at a minimum, all detailed engineering, all construction and all equipment, including vehicles, train control, power, communications and fare-collection equipment will be supplied by private entities.
RESOLUTION NO. 88-177

A RESOLUTION

AUTHORIZING THE GENERAL MANAGER TO ACQUIRE APPROXIMATELY 0.9573 ACRES OF LAND NEEDED FOR THE EXTENSION OF WESTPARK DRIVE FROM EDLOE TO KIRBY; AND MAKING FINDINGS AND PROVISIONS RELATIVE TO THE SUBJECT.

WHEREAS, the Board of Directors has previously authorized the General Manager to negotiate with Jack H. Roach III, et al for the acquisition of approximately 0.9573 acres of land needed for the extension of Westpark Drive; and

WHEREAS, negotiations with the owners, Jack H. Roach III, et al have resulted in an agreement for the acquisition of the property for $1,050,000.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE METROPOLITAN TRANSIT AUTHORITY THAT:

Section 1. The General Manager be and he is hereby authorized and directed to contract with Jack H. Roach III et al for the acquisition of approximately 0.9573 acres of land needed for the extension of Westpark Drive from Edloe to Kirby at a cost of $1,050,000.

Section 2. The General Manager or his designee be and he is hereby authorized to undertake all administrative actions reasonable and necessary to complete the acquisition of said property from the owners, Jack H. Roach III, et al, and to execute all documents necessary to complete said transaction.
Section 3. This resolution is effective immediately upon passage.

PASSED this 21st day of November, 1988.
APPROVED this 21st day of November, 1988.
