The principal changes are as follows:

1. Waiver and explanation provisions for qualified joint and survivor annuity and qualified preretirement survivor annuity have been revised to meet the requirements of the regulations on the subject issued by the IRS subsequent to the execution of the previous Plan Document.

2. The detailed itemization of the requirements of Code Section 415 concerning maximum pension payments has been deleted and the Plan now merely incorporates, by reference, Code Section 415 as authorized by regulations.

3. New rules have been incorporated requiring the Plan to make direct rollover contributions to IRAs or other plans at the request of the distributee for lump-sum distributions.

4. New rules have been added of placing the limitation upon the distributions to the top 25 highly compensated employees, which replaced the old limitations of benefit provisions contained in the Plan.

5. Top-heavy provisions have been eliminated since they do not apply to governmental plans.

6. In accordance with a recent U.S. Supreme Court decision, language has been added to the Plan which gives to the Board or Committee, power to interpret the provisions of the Plan and to determine eligibility for benefits. Such discretion will limit judicial review of those decisions to an "arbitrary and capricious standard." Without such language, judicial review would be on a de novo standard.

7. A new $150,000 ceiling on compensation in determining accrued benefits under the Plan has been added.

8. The amendments increasing the benefit for pre-October 1, 1978 service is included in the Restated Plan as well as the proposed 1995 Early Retirement Incentive Program.

A RESOLUTION REGARDING THE DESIGNATION OF A NATIONAL HIGHWAY SYSTEM; AND MAKING FINDINGS AND PROVISIONS RELATIVE TO THE SUBJECT.

WHEREAS, the nation’s Interstate highway system has been instrumental to the economic vitality of our country but, as envisioned in the 1950’s, is not sufficient to allow our continued growth in the 21st century; and

WHEREAS, the United States House of Representatives and United States Senate each passed legislation in the 103rd Congress to approve a new National Highway System of about 159,000 miles, but failed to reconcile the difference between the bills before Congress adjourned, and so the bills died at that time; and

WHEREAS, over $6.5 billion in available federal highway funding will not be apportioned to the states unless the new National Highway System is approved by September 30, 1995; and

WHEREAS, the System was based on plans submitted to the federal government by the states and developed in consultation with local authorities within each state; and

WHEREAS, the National Highway System comprises only 4% of the nation’s public roads but will carry 40% of all highway traffic and 75% of heavy truck traffic; and

WHEREAS, 60% of U.S. households and 70% of our businesses are within five miles of an Interstate route, but 90% and 95% respectively will be that close to the National Highway System; and

WHEREAS, funding for the National Highway System can be expected to fund 250,000 jobs each year; and
WHEREAS, traffic congestion currently costs travelers about $1 billion per year in lost productivity in each of the nation's eight largest metropolitan areas; and

WHEREAS, nearly 70% of the access roads to containerized ports are usually or always congested and so improvement of these roads will help the country compete in the global economy; and

WHEREAS, the National Highway System will benefit all consumers, reducing the cost of transporting goods and products, thereby producing savings for us all; and

WHEREAS, the National Highway System is important to the nation's defense, including 15,500 miles of Strategic Highway Network identified by the Department of Defense, and 2,000 miles providing access to 242 military bases; and

WHEREAS, every dollar that the federal government spends on better highways in this country is derived from user fees charged to highway users; and

WHEREAS, in the State of Texas, the National Highway System comprises 13,311 miles of our roads, and will carry 46.2% of all motor vehicle traffic; and

WHEREAS, the National Highway System brings $437.7 million in annual federal-aid highway funding to the State of Texas; and

WHEREAS, this legislation will be beneficial to the nation, the State of Texas and the Metropolitan Transit Authority of Harris County;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE METROPOLITAN TRANSIT AUTHORITY THAT:
